I'm an organised and driven professional with creative mindset and comprehensive experience in Graphic Design and Social Media Marketing. Knowledge of Front-end technology basics and looking to further develop UX skills. Supervised and collaborated on numerous successful international projects. Excellent people skills and successful track record working in team settings as well as being an individual contributor. When I'm not designing you will find me making hand-made card, travelling around and take a time-lapse video, cooking at home, hang out with friends or just spending some time with my dog and little cacties.
